

MOBIMONEY GUIDE

Use this new app to add more restrictive controls over your debit card. You can turn on and off your debit card, set alerts for specific low balance amounts, control where your card is able to be used, set spending limits, and more. You can download the free MobiMoney app for your Apple or Android device, and feel at peace knowing you've got control over your card.

Step 1

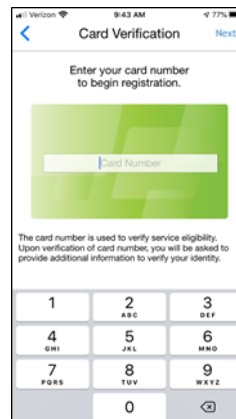

Open the **MobiMoney** app.

Then tap **“Get Started”**.

Step 2

Choose a card or add a new card. Then tap **“Next”**.

Step 3

Once you've added your card, you can

- Turn it **“ON/OFF”**.
- Set more restrictive **spending limits**.
- **Set up alerts** for low balances or recent transactions.
- **Check balances** and **conduct transfers**.
